They were full of all kinds of stuff a king might need for the afterlife. Their interior decorations, for the most part, stand well to this day. Of all the temples in ancient Egypt, the Hatshepsut Temple is among the most exquisite and well-preserved. The temple was constructed on three levels, which were connected by two broad ramps that ran through the middle. The only remnants of a fully functional mortuary temple are two enormous stone statues of King Amenhotep III known as the Colossi of Memnon. The blocks used to create these statues were transported 700 kilometers to Luxor from slabs of quartzite sandstone that were originally in Cairo.
